Subject: Follow-up on SW Roundtable Sessions

Dear Roundtable Participants:

Thank you for your participation in the Stormwater Financing Roundtable Series over the last four months. Your knowledge and enthusiasm really brought the entire process together, especially during our final roundtable meeting last week. We hope that you found the presentations useful; we certainly learned a lot by listening to your presentations and have an even greater appreciation for the challenges and opportunities that you all face within your municipalities.

We will be in touch a few times in the near future. First, as discussed, Kate Mulvaney and Julia Twichell will be contacting you to set up short telephone interviews sometime after July 1. We hope to host a second roundtable series again, so any feedback you can provide will be used to improve the experience for other municipalities. Thank you for your willingness to take time to talk to them. Also, within the next two weeks EPA will send you an email letting you know when the updated website and resource list are available. Finally, we will be in touch in the fall to gauge your interest in participating in a six-month follow-up meeting.

Your involvement made this first pilot Roundtable Series an engaging, informative and useful experience for all involved and we thank you for that, especially since we know how busy you all are. We hope that the skills you learned will be helpful as you move forward engaging your stakeholders and finding ways to finance stormwater management practices in your town.

Sincerely,

Carri and the EPA Team
